## CABLEGRAMS.

**A Berlin View of German Radicalism—International Rowing Match.**

**Further Details of the Reign of Terror in Russia.**

**The Relations of France and England—Great Fire in India—Floods in France.**

### GREAT BRITAIN.

**ROWING CHALLENGE.** London, May 14.—Fred. Plafsted, of New York; publishes a challenge offering to row Butman, of Shadwell, Messenger, of Teddington, or Kempster, of Sunderland, over the Thames championship course on their own distance, for £100 to £200 a side.

### PERSONAL.

London, May 14.—Empress Augusta, of Germany, agreed at Windsor Castle to-day, on a visit to the queen.

### FINANCIAL.

London, May 14.—The amount of bullion withdrawn from the Bank of England to-day was £250,000.

### RUSSIA.

**REIGN OF TERROR.**

Washington, May 14.—Hoffman, the American charge at St. Petersburg, informs the department of state that every one coming into Russia must be provided with a passport verified by the Russian consul; he must be registered at the police station and must comply with regulations or be subject to fine or imprisonment. St. Petersburg; Moscow, Odessa, Kieff, Kharkoff and Tolka are especially subject to strict police rule.

All the principal ministers of the imperial government are accompanied by mounted Cossacks when they appear in public. Hotels and boarding houses were under police surveillance.

**ANOTHER FIRE.** St. Petersburg, May 14.—The governor of Orenburg telegraphed on the 13th inst., that another fire occurred there on the 8th inst., and was quickly extinguished. The first fire, which was on the 12th inst., just half consumed the Cossack quarters.

The governor of Uralak, in the government of Uruburg, telegraphs that on the 11th inst., a fire there destroyed a considerable portion of the town and that the flames were still raging.

### INDIA.

**GREAT FIRE.** Bombay, May 14.—There was a great conflagration last night at Poonah, an important government and military centre about eighty miles south-east of this city. The government school, Boodar Palace, the post office, the police office and fifty houses were completely destroyed.

### FRANCE.

**FRANCE AND ENGLAND.** Paris, May 14.—The Journal Debats says that on the attitude of England

on the Greek question may depend the continuance of that mutual confidence which has hitherto marked the relations between France and England.

### INUNDATION.

Paris, May 14.—The town of Palais has been inundated, in consequence of continuous rains, and much damage done.

### GERMANY.

**DIPLOMATIC VIEWS OF FRENCH AFFAIRS.**

Berlin, May 14.—In diplomatic circles here it is considered that in view of the efforts of radicalism in France, a solid settlement there is scarcely possible.

### PERSONAL.

Berlin, May 14.—Princess Charlotte of Prussia, granddaughter of Queen Victoria, was delivered of a daughter Monday.

## WASHINGTON.

**To-day's Proceedings in Both Houses of Congress.**

**A Bill to Organize Indian Territory into a State.**

### WASHINGTON POSTOFFICE.

Washington, May 14.—The senate and house committees on public buildings and grounds to-day adopted the following resolution offered by Murcl:

Resolved, that the postmaster general and the chairman of the senate and house committees on public buildings and grounds are hereby constituted a commission with authority to lease such a building in this city for the purpose of the city postoffice as in their judgment the good of the public service may require, provided that said lease shall be for a term of not less than three nor exceeding five years, at an annual rental not to exceed \$5,000.

### THE FOUR PERCENT.

Subscriptions to the four percent refunding certificates since yesterday report \$696,550.

### ORDERED RELEASED.

Secretary McCrary, in conformity with the decision of Judge Dundy in the Poncas habeas corpus case, has directed that these Indians be released.

### THE EVERLASTING EADES.

Capt. Eades has made application for an additional payment of \$500,000. He claims that he has obtained a channel at the mouth of the Mississippi twenty-five feet deep and 200 feet in width.

### THE INGLETS CASE.

Lee Eggers and P. Humberbaugh had a hearing to-day before the senate committee on privileges and elections in regard to the allegations of memorials signed by them and others charging that the election of Senator Ingalls was procured by bribery.

### CONGRESSIONAL.

#### SENATE.

Washington, May 14.—Mr. Vest gave notice of his intention to introduce a bill proposing to organize Indian territory into a state and providing for its admission into the union.

His resolution making inquiry as to whether any part of Indian territory had been purchased by the United States with the view of locating Indians or freedmen thereon was agreed to.

Consideration was then resumed of the legislative, executive and judicial appropriation bill.

Mr. Kernan advocated the repeal of the test oath and spoke against the use of the army at elections.

#### HOUSE.

After the passage of the bill allowing expenditures in connection with the improvement of the Kentucky and Great Kanawha rivers and of the bill for a commission to lease a building for the Washington city post-office, Warner attempted to have his silver bill considered, but failed to obtain the necessary two-thirds vote. The business of the morning hour was then taken up, with the bill in regard to the transfer of cases from state to federal courts.

### National Millers' Association.

Chicago, May 14.—In last night's session of the millers' association Henry Stanley, of St. Louis, made a technical report on mill machinery, which was adopted. H. A. Hayden, of Jackson, Mich., made a report on insurance, favoring the mutual plan. He offered a resolution urging increased vigilance by the officers of mutual companies in their examination of mill risks. Adopted.

Mr. Burbridge, of Alton, Ill., offered a resolution reciting a recent decision by Judge Cicuis, of the United States court at Milwaukee, that the law for the registration of trade marks is unconstitutional, declaring that the milling interest in the country require more stringent laws on the subject, and recommending the proper legislation by Congress, which should be presented and urged by a committee appointed for that purpose.

After quite a warm discussion the matter was dropped.

This morning Mr. Burney again brought up the resolutions, which were at once voted down.

The report of the committee on milling, was made by W. P. Brown, of Red Wing.

### Refreshing Rains.

St. Louis, May 14.—Heavy showers fell here last night and this morning and heavy rains prevailed over a considerable extent of territory west of here yesterday, benefitting the crops greatly.

## CRIME AND CASUALTY.

**Terrible Stabbing Affray at Frankfort, Ky., this Afternoon.**

**Three Children Burned to Death—Destructive Steamboat Explosion.**

### A \$20,000 EXPLOSION.

Port Huron, May 14.—At 2:30 this morning a lamp exploded in the cabin of the steam-barge Henry Howard, lying at this port having repairs made on her boiler. An alarm was sounded, the force pumps were put on and in a short time the flames were subdued. The fire destroyed her cabin and the smoke stack and her small boat. Loss covered by insurance; damage \$20,000.

### FIRE.

Taylorville, Ind., May 14.—Yesterday the large barn of L. B. Perry, together with its contents, and a brick dwelling near by, burned. Loss, \$8,000; insured for \$5,000.

### BURNED TO DEATH.

Toronto, May 14.—Three children, Richard Casey, John Casey and John Edward were burned to death yesterday while at play in a shed.

### A DESPERADO KILLED.

Lynchburg, May 14.—The revenue officers had a fight with bushwhackers near Cumberland Gap and the notorious Burl Gaines was killed.

### MISCEGENATION.

Richmond, May 14.—In the United States circuit court to-day a writ of habeas corpus in the miscegenation case of Edmund Kinney and Mary Hall, now confined in the penitentiary for violation of the state statutes prohibiting inter-marriage, was denied by Judge Hughes on the ground that the United States courts have no jurisdiction over questions of marriage.

**TERRIBLE STABBING AFFRAY.**

Frankfort, Ky., May 14.—A difficulty occurred this afternoon between Dr. W. H. Hall, a prominent physician and J. M. Stephens, a butcher, in which Hall was stabbed in four places dangerously, and Stephens received a fatal shot. The origin of the difficulty is not known. Hall met Stephens on the street, drew a pistol and fired, when Stephens wrenched the weapon out of his hands and stabbed him four times with a knife. Stephens could have killed Hall with his own pistol, but after disarming him he stepped back several paces and stood until he saw Sheriff Williams coming down the street, when he called to him to come and arrest him and gave himself up. Hall was taken to the office of Dr. Duval and now lies there in a critical condition.

### SUPPOSED MURDER.

Columbus, May 14.—About three weeks ago an unknown man was found in the river near Hilliard station.

The body was considerably bruised, had a suspender tied around the neck and had heavy stains in the pockets of his clothing. A coroner's jury returned a verdict of suicide.

Parties resident here have reason to believe that the dead man was Isaac Neff, of Aville, Ind., a justice of the peace, who, after collecting \$600 here, started for Hilliard in a buggy with another man.

Since that time Neff has been missing, and it is feared he was murdered and thrown into the river.

Owing to the absence of the coroner the body cannot be disinterred to prove the truth or fallacy of the suspicions of friends.

### MEDICAL.

**Ohio Homeopaths at Cleveland.**

Cleveland, May 14.—The Homeopathic Medical Society of Ohio began its session in the parlors of the American Hotel yesterday morning. The president, Dr. H. H. Baxter, delivered the annual address, after which ensued a general and highly interesting discussion as to the treatment of different diseases, etc. There is a large attendance of prominent physicians from all parts of the state. The meeting will close this evening with a complimentary banquet by the Cleveland Academy of Medicine and Surgery.

The twentieth annual meeting of the Northern Ohio Dental Association met in the parlors of the Weddell Hotel yesterday. The meeting was called to order by the president, W. J. Lyder, of Akron. After routine and legislative work, a general discussion of matters pertaining to their profession took place. The association then adjourned until this morning.

### The Colored Refugees.

St. Louis, May 14.—The officers of southern steamboat companies having headquarters in this city, and officers of steamers plying between here and New Orleans, deny having refused transportation to colored refugees, whenever the latter have had money to pay passage. They also deny there being generally expressed disposition on the part of merchants to withdraw patronage from boats which carry immigrants. This has been done in a few instances to prevent negroes from leaving the south, but the situation is changing, and now planters don't seem to care whether they leave or not. The officers of the latest arrived boats say they were not stopped on the way up by negroes, and they don't believe there are any such numbers of refugees on the river banks as has been

stated. The excitement is fast dying out, and will cease altogether in a short time.

### MAINE.

New York, May 14.—Arrived, steamships St. Laurent, from Havre and Victoria from London.

Southampton, May 14.—Arrived, Morelle, from New York.

New York, May 14.—Arrived: Steamship Nevada from Liverpool.

### THIRTY YEARS AGO.

**A Woman Sacrificed by a Religious Lunatic.**

[Hartford Times.]

The accounts published of the funeral of his daughter by the Massachusetts Second Adventist, recalls a somewhat similar case that occurred in New Haven some thirty years ago. It was soon after the frenzy caused by the predictions of Elder Miller, the apostle of the visible immediate coming of Christ. In the northern part of the city, though then the outskirts, there were a number of ignorant people who met together every day, and almost all day long held their peculiar religious services, and among them were a man and woman who were even more affected by the excitement than the others were. This man at length announced that a sacrifice was demanded; that he was called upon by the Almighty to officiate as priest, and that the woman must give up her life as the sacrifice. He further announced that at the end of a certain time—those who best remember the facts say it was three days—the woman's life would be restored, and that she should be glorified thereby, and be accepted as one of the saints of the kingdom. It is now stated that some of the people who listened to him believed that he was divinely commissioned to perform the sacrificial act. At all events, the hour and day were set, and in a little room in a house in the outskirts, the woman and man, and it is said others, assembled. The woman, after prayers and incantations, laid upon the floor, and the man, seizing an axe, severed her head from her body and otherwise mutilated the body. Then he sprinkled her with her own blood, and began to pray. When the police arrived he begged earnestly to be allowed to continue his devotions, and assured the officers that they would either find her dead or else meet with the most terrible vengeance if he was interfered with. Popular feeling was so intense that there was some talk of lynching the man, but his insanity was so evident that he was merely confined. It put an end, however, to the religious excitement that had possessed a number of people for several months.

CONGRESSIONAL SUMMARY.

Tuesday, May 14.—SENATE.—Consideration of the legislative appropriation bill was resumed. A motion to amend by striking out the clause for the speedy payment of arrears of pensions was negatived; yeas 25, nays 21. HOUSE.—The bill prohibiting military interference with elections was called for and failed to pass over the veto; yeas 127, nays 97, not being a two-thirds majority. It was then referred to the judiciary committee. The house then considered the bill relating to the removal of cases from state to federal courts, and the bill relating to foreign laws and coin and bullion certificates.

The new standing committees of the council will be found elsewhere. They were selected with good judgment, and the council is now well organized for business.

THE JACK BUNSBY who shapes public opinion in the columns of our esteemed but slightly stupid morning contemporary delivers "an opinion as is an opinion" as Capt. CUTLER would say. Listen:

Simply because the so-called military interference clause was detached from the regular appropriation bill and presented as a separate measure, it does not have its connection with the original bill.

The bill vetoed by the president made no appropriation of any kind, and hence our e. c. calls it, "the army appropriation bill." Of course every intelligent reader will perceive the connection at once.

THE council last evening re-elected C. S. BRACKENRIDGE city civil engineer, DENNIS O'BRIEN street commissioner, HENRY COLEBECK city attorney, F. B. VOGEL, chief engineer of the fire department, and E. B. SMITH chief of police. These gentlemen have all made efficient and valuable officers, and the council did wisely to retain them. The new board of health consists of Drs. Brooks, Dills and HEDCHLING. Dr. Brooks is too old to do much labor, and the work of the board will devolve principally upon the other members, who are young and capable. The defeat of Dr. Josse was a great mistake, as he has been altogether the most useful and efficient health officer the city has ever had.

MAYOR ZOLLINGER'S MESSAGE. Mayor ZOLLINGER yesterday entered upon his fourth term of service as the chief executive officer of the city. His annual message will be found elsewhere and will, we are sure, be perused with interest by every taxpayer in the city. The mayor reports a steady improvement in the financial condition of the city. During the past five years the municipal indebtedness has been reduced \$150,000, and within the same period the total assessed value of taxable property has been reduced from \$18,000,000 to \$13,500,000; and the rate of taxation from 1.46 to 1 percent. The bonded debt of the city is now \$601,000, the greater portion of which was incurred in aid of railroads.

Next September \$100,000 of 10 percent city bonds will fall due. A portion of them will be paid, and the balance will be funded into bonds bearing a lower rate of interest. The mayor expresses the opinion that at that time six percent city bonds can be readily sold at par. Indeed, we should not be surprised if the interest could be reduced to five percent, which would make a material saving in our annual interest account. We now pay out for interest annually \$41,480. The mayor in his message also discussed matters in connection with several other departments of the city government, and made

some suggestions and recommendations in which the SENTINEL heartily concurs and which should be adopted by the council. Referring to the bad condition of a portion of our Nicolson pavements, he states that they will have to be replaced at once with new pavements and suggests that cedar blocks or a good quality of gravel be used instead of the Nicolson. The cedar block pavement has been used in Detroit and other cities and given the best of satisfaction; but we believe the experience of Fort Wayne is strongly in favor of the Nicolson.

The pavement on Calhoun street, between Wayne and Columbia, was laid thirteen years ago, has been subjected to heavy traffic, and cost next to nothing for repairs, but is to-day in very good condition. When Nicolson pavement is well laid, and good material is used, as in this instance, it is perhaps as good as can be used in a city like Fort Wayne, where stone and gravel are scarce and expensive.

MAYOR ZOLLINGER recommends the distribution of the fire apparatus, a measure which the SENTINEL has been urging for many years. The present arrangement, by which all the apparatus is kept in one building, is unjust and inconvenient. The outside wards pay their proportion of taxes and are entitled to fire protection. In them are located the large manufacturing institutions which give employment to so many hundreds of men, and without which Fort Wayne would be of little account. The loss of one or more of these institutions would be a terrible blow to our city. We are aware that the distribution of the apparatus would involve some expense, but we believe it would be a wise and judicious investment.

The mayor, as he has often done before, calls attention to the disgracefully filthy condition of the police station, which the SENTINEL has so often described. A new station house is needed, but it is doubtful if the erection of a city prison or work house, as is suggested, would be a measure of economy unless built in connection with a city hall. Under the law cities are now authorized to convey real estate, and it might be well to sell the city property now occupied for police and fire purposes, and the proceeds would go a long way toward paying for the erection of a city hall and the location of fire engine houses on cheaper sites.

The council is an intelligent body of men, composed almost entirely of wide awake, active business men, and we hope to see them deal with these matters in the right spirit. The time for boy's play, petty quarrels and general tomfoolery has passed. The questions before the council now are of great importance and need to be carefully handled. The erection of water works, the repaving of our streets, the repair and distribution of the fire apparatus, the erection of a city prison, and the possible building of a city hall, are all matters of the gravest interest, involving as they do, the comfort, health, security and prosperity of the city, and the welfare of future generations. We trust that the new council realizes and appreciates the heavy responsibility placed upon it, and that it will approach these matters in the proper spirit.

Her Stockings. (Tokio (Japan) Times.) The prettiest and daintiest of Japanese belles now in Europe was recently discovered in partial deshabille by some lady visitors, who were captivated by the effect of the neat and closely fitting tabi upon her tiny feet, and pronounced them, after leaving, just too awfully nice for anything, while the contrast between the snowy whiteness of the linen sandals and the peculiar delicate tint of the stockings beneath was perfectly splendid! They easily procured the tabi, but they searched the city in vain for matches to the lovely hose. The new color was evidently a rare Oriental dye, which had not reached the marts of Europe. In their disappointment sore they went to the Japanese lady and explained to her that they had set their hearts on producing in their morning negligees the same combination they had noticed on her feet and ankles. Would she be so kind as to lend them one of her stockings to enable manufacturers to attempt imitation? And then the little lady smiled and gracefully whipped aside her "uwagi, nakagi, and skitagi," disclosing that the admired stockings were not the mysterious products of some jealously guarded eastern loom, but the dusky, unadorned garment with which nature had provided her.

## THE MUNICIPALITY.

Full Text of Mayor Zollinger's Inaugural Address—Facts and Figures—Valuable Suggestions and Recommendations.

In accordance with custom at the beginning of a new term of office, in my case the fourth consecutive term, I avail myself of the opportunity offered at this time to lay before you a brief and general statement of some of the more important affairs of the city, and to make to you such recommendations as seem proper to be made with respect to matters that will come before you for your consideration.

CITY FINANCES. The steady improvement that has been made in the financial condition of the city for the past five years, furnishes matter for congratulation to all concerned. During that period alone our municipal indebtedness has been reduced in the sum of \$150,000. This fact is all the more noteworthy and gratifying when we consider the further fact that within the same period the assessed value of property, furnishing the basis for taxation, has been reduced from sixteen millions to thirteen and one-half millions of dollars, and the rate of taxation has been reduced from \$1.45 to \$1.00 on each one hundred dollars of valuation. The total bonded city indebtedness on the first day of April, 1879, was \$601,000, the greater portion of which was incurred in aiding public enterprises connected with the welfare of the city.

The annual interest on our bonded indebtedness amounts to \$41,480. In September next \$100,000 of the bonds of the city issued in 1869, mature. These bonds were issued to fund the then outstanding city orders and bear ten percent interest. This debt can doubtless be met by the issue of other bonds bearing only six percent interest, which can be sold at par, thus effecting a saving in the matter of interest alone of \$4,000 per year. There is now sufficient money in the treasury to pay all outstanding orders issued prior to December 1st, 1878, and notice has been given by the treasurer to that effect so as to stop the accumulation of interest upon such as are not presented for payment. For a detailed statement of the affairs of the city you are referred to the full reports of the clerk and treasurer on file. Great credit is due to the gentlemen composing the finance committee for the past year for the able and efficient services they have rendered in that capacity.

STREETS AND ALLEYS. The streets and alleys of the city require much attention. In this department of the city government much money can be easily squandered and spent, with little corresponding benefit unless great care is taken in its management. A considerable portion of our Nicolson pavement must be soon replaced. In this connection I would invite your attention to the practicability and economy of using either cedar blocks or a good quality of gravel or stone in replacing these pavements and improving other portions of the streets. I would also recommend that these improvements be commenced at an early day, and as much be completed each year as is under the circumstances practicable. Many of the alleys of the city are in a bad condition. These also should, in like manner, be graded and paved as fast as practicable. They could then be easily cleaned and kept clean. This, for sanitary and other reasons, is highly desirable. There was expended upon the streets and alleys for labor and material, during the past year the sum of \$17,245.66. This was, I believe, carefully, judiciously and economically expended, and so applied and used as to result in the largest benefit attainable. The sewers of the city are not sufficient. The system should be extended and enlarged, and needed sewers which are greatly demanded, should be supplied as rapidly as the condition of affairs will warrant. The fire department of the city is one of the best in the state. It is well and economically managed; good discipline is enforced, and it is, in every respect, highly creditable and efficient. It could be rendered still more efficient, however, by putting all the old engines in good repair immediately, and by distributing the engines, and locating them at different points in the city, which I recommend should be done. This being done, and aided by our excellent system of fire alarm telegraph, our city would be well secured against devastation by fire. The total expenses of this department for the past year, including the building and repairs of engines, and the repairs of engines, was \$16,028.88.

CITY PRISON. There is great need of a city prison. The city should be in a condition to board its own prisoners. This would result in a large saving of money. It has cost as much as \$400 per month to board city prisoners, chiefly tramps. Besides, as it is now, when such prisoners are sent to jail, they are virtually out of the control of the city. Upon their refusal to labor, in accordance with the terms of their sentence, the guards having them in charge, have repeatedly reported that the order to confine them in cells on a diet of bread and water is not carried out, and it cannot be enforced by the city authorities. Such imprisonment is little terror for the average tramp. In fact he courts and seeks rather than fears or avoids it. With different management and arrangements there is little doubt but that the city could speedily rid itself of this class of prisoners.

Another urgent reason for the building of a city prison is furnished in the insufficiency and disgracefully filthy condition of the city calaboose. It is wholly unfit in size, location and construction for the confinement of prisoners, even for a single night. Common humanity and a regard for ordinary decency should dictate a change in this respect, or its entire and immediate abandonment. This has been recommended more than once before. It is to be hoped that the present council will find it expedient to take early action in this matter. The police department of the city has been highly efficient during the past year,

and its management is to be commended in all respects.

The streets of the city are well lighted, but at an expense which should and probably can be reduced at the expiration of existing contracts therefor. Last year there was paid for street lights \$10,548.

WATER WORKS. In view of the recent election of a board of water works trustees and of the fact that pursuant to a late act of the legislature, a petition has been filed asking an election to determine whether water works shall be built by the city, it has been thought advisable to add to the former list of committees a committee on water works. An election will, under the law, soon have to be held to determine whether or not the city will proceed to construct water works at once. This is a question of great importance as it will involve a large expenditure of money. The question should be presented to the people fairly, so as to be fully understood. This being done the matter will rest wholly with them for determination and you will be to that extent relieved of responsibility.

FINALE. I desire at this time to acknowledge the efficient assistance I have at all times received in the discharge of my duties as mayor from the members of all the departments of the city government, from the city officers, and the members of the council, and to express my thanks therefor.

Gentlemen, important interests have been entrusted to your care; your duties will be arduous. The prosperity of our city has for some time past been steadily increasing and its prospects brightening. Whether this shall continue depends largely upon your careful, wise, and judicious action in the management of our municipal affairs. The strictest economy consistent with the enterprise of our citizens and character of our growing city should be studied and practiced. There is no reason to doubt that you will faithfully discharge the important duties which your fellow-citizens have imposed upon you.

Allow me to express the hope that our relations will be pleasant and our conduct such as to create mutual good will, justifying the confidence reposed in us by our constituents, and leave us nothing to regret in the future.

## Cuticura

REMEDIES. Infallibly Cure all Skin and Scalp Diseases, Scaly Eruptions, Itchings and Irritations.

The testimonials of permanent cures of Skin and Scalp Diseases which have been the result of a lifetime, by the CUTICURA Remedies, are too numerous to detail. They have been performed by any method or remedy known to the medical profession. CUTICURA Remedies, a powerful Blood Purifier, is a blood purifying agent which finds its way into the circulating fluid and thence through the oil and sweat glands to the surface of the skin, thus destroying the poisonous elements, with which these vessels have been daily charged.

CUTICURA, the Great Skin Cure, applied externally, arrests all unnatural or morbid growths which cover the surface of the diseased glands and tubes with Scaly, Itching and Irritating humors, speedily it removes them, leaving the pores open, healthy, and free from diseased particles of matter.

This internally and externally do these great bodies set in conjunction, performing cures that have astonished the most noted physicians of the day.

SALE RHEUM FOR 30 YEARS

On the Head, Face, and the Greater Part of the

Messrs. WEEKS & POTTER: Gentlemen.—I have been a great sufferer with Salt Rheum for 30 years, commencing in my head and face and extending over the greater part of my body. I have taken gallons of medicines for the blood of different kinds and tried good physicians, all of which did me no good, and came to the conclusion that I could not be cured. But a friend called my attention to an article in the Union on skin diseases, and I got a box of CUTICURA. The first application was a great relief, and the third took the scales all off, and I felt like a new man. I have used three 50-cent boxes and my skin is smooth and clear, and I consider myself cured. Hoping this cure will be of some one afflicted as I have been (if there is any) is my earnest wish. And I cheerfully recommend it to all persons afflicted with like diseases. Yours truly, D. WILSON LORD.

Agawam, Mass., Sept. 9, 1878.

The CUTICURA Cream should be used for cleaning all diseased surfaces, as most soaps are injurious to the skin.

LEPROSY.

A Modern Miracle, Astonishing Results from

Messrs. WEEKS & POTTER: Gentlemen.—We have a case of Leprosy in our household which is being cured by your CUTICURA. The cure is complete. All of our doctors and had sent to New York for advice, but to no avail. The patient commenced using the CUTICURA and immediately began getting better.

He had been confined to his bed for two and one-half years. He had not had his clothes changed since that time. Last week he dressed for the first time.

When he walked there would at least one quart of scales come off him.

This happened every day.

We think it is a wonderful cure.

We do not say he is cured, but he is a fair way to be cured by the CUTICURA. Truly, DRUGGISTS AND BOOKSELLERS.

"Fahaw, he's not handsome, if he did attract attract attention. He's positively ugly when you come to look at him."

"Why did every body admire him so then?"

"That is not hard to explain. He was dressed in the latest style, and the best of tastes. His new spring suit fit him exactly, and was made up in a neat manner. Of course he got them of A. Foster, the leading merchant tailor of the city, No. 21 Calhoun street."

It is of interest to everybody to know that A. Foster is making clothes this year at prices that can't be beat. He has long been considered the Leading Fashionable Merchant Tailor of the city, and at the same time it is known that he makes clothes so cheap that anyone can afford to be well dressed. ## GRAHAM-FISHER.

**Rehearse Wedding at Peru Last Evening—The Ceremony, Toilettes and Presents—A Very Brilliant Affair.**

Our popular fellow citizen, D. C. Fisher, has at last shuffled off the bachelor coil which he has worn so long and so gracefully and is now numbered with the benedictos. The ceremony was performed last evening at the residence of John A. Graham, a leading citizen of Peru, the bride being his lovely and accomplished daughter, Miss Dora Graham. The officiating clergyman was the Rev. Father Weisner, priest of the Peru Catholic Church. A large number of guests were present, and the affair passed off in a most delightful manner. An elaborate entertainment was served and during the evening the happy couple were the recipients of a serenade from the Peru Cornet Band.

Among the guests from this city were Robert J. Fisher and wife, John Shurick and wife and James Harper. The bride was elegantly attired in a gown of brown and silk, very elaborately trimmed with lilies of the valley and orange blossoms; pearl ornaments.

Among the most noticeable toilets were the following:

Mrs. Harvey Shirk, black gros grain silk, with thread lace.

Miss Nora Shirk, black velvet and gros grain.

Miss Katie Shirk, pale blue bunting and satin trimmings.

Mrs. Louis B. Fulwiler, black silk and velvet.

Miss Alice Graham, black gros grain silk, lace trimmings.

Miss Vicie Graham, black gros grain silk, lace trimmings.

Miss Carrie Graham, black tulle, elaborately trimmed with platings of the same material; diamond jewelry.

Mrs. W. B. Fisher, of New York, black silk, trimmed with gold, satin and point applique lace; old gold and scarlet turban and caught at the side with a diamond aigrette.

Mrs. G. J. Reed, black silk velvet, lace and fringe; pink cameo ornaments.

Mrs. R. J. Fisher, black silk and velvet, elaborately trimmed, with jet and diamond ornaments in the same.

The presents were numerous and costly, among them the following:

Piano and Roman gut basinet (very elegant) from the groom; marble and bronze clock and bronze candlesticks, Mr. and Mrs. W. B. Fisher; solid silver and cut glass dinner cases, Mr. and Mrs. Fisher; case of solid silver spoons, John A. Graham; solid silver canteen, Louis McGenthen; pair of silver cups, Mr. and Mrs. S. F. Winters; silver pitcher and goblet, Alice Graham; silver vases, Mr. and Mrs. Frank E. Young; toilet set, Mary O'Brien; case of toilet articles in ivory, Mr. and Mrs. F. M. Crane; silver pickle castor, Mr. and Mrs. L. B. Fulwiler; silver jewelry case, Mrs. H. J. Shirk; picture of the bride's father, Miss Carrie Graham; Venetian glass jewel case, Master Fred Fisher; silver and gold card receiver, Master Fisher; Japanese toilet mirror, Nellie B. Fisher; William Cutler Bryan's Poems, in Russian leather, E. F. Carry; bouquet of magnolia blossoms, Dr. J. H. Helm and Frank J. Fisher; Atlanta, Allen white satin fan with carved ivory sticks, trimmed with ostrich feathers, Katie Shirk; silver nut cracker, Charlie Shirk; heavy gold ring, Rose Wilson; pair of panel pictures, Mrs. John Shurick; silver card, W. T. Pratt; pearl card case, Alice Graham; cut glass and jet ornaments, Ida Corwin; silver mustard set, Belle Walker; silver ice pitcher and goblet, Mrs. G. Graham; worsted crocheted shawl, Fannie Fulwiler; Turkey morocco prayer book, gold set, Mrs. S. B. Pratt.

Mr. and Mrs. Fisher left on the evening train for a tour through Indianapolis, St. Louis, Louisville, Cincinnati and other southern and western cities, and upon their return to Fort Wayne on the 20th inst., will begin housekeeping at No. 58 West Berry street.

## THE RAILROADS.

The Wabash road earned in April \$350,000 against \$411,285 the corresponding month in 1878.

The Wabash Road has a large gang of workmen engaged in raising the railroad bridge on Riddle's Island to the height of a foot.

Engine No. 179 will be out of the Pittsburgh shops in a few days, having been entirely rebuilt. It will be the first engine on this division having the patent straight stack.

Articles of consolidation of the Toledo and Maumee narrow gauge, Toledo, Delphos and Indianapolis, Delphos and Kokomo, and the Delphos, Burlington and Frankfort railroads, were filed with the secretary of state yesterday. The new corporation is styled the Toledo and Maumee Burlington railroad, and has a capital stock of \$1,000,000, divided into 60,000 shares of \$16 each.

Says the Kalamazoo Gazette: "The Grand Rapids and Indiana Railroad Company are tearing up, repairing, building and making other improvements along their line of road. Notable among them is the new building at Sturgis, Mich., where at this place the cars are pulled off and transferred to Kendallville, where they are in more of a hurry for their buildings."

Indianapolis Journal: Now the management of the Fort Wayne, Muncie and Cincinnati road come to the front and claim that their passenger engine No. 2 is one of the best running engines in the road with a train of two or three coaches. It is a grand build, has 52 feet drivers, 16x22 inch cylinders. Several remarkable runs have been made by this engine, and it is claimed that on a straight, No. 1 track, like that of the Erie line a still better record could be made.

The fastest freight train on record between New York and Chicago was made last week by a special train over the Pennsylvania and Erie roads. It was run under contract with the tobacco manufacturing firm of Lorillard Brothers, who desired to take advantage of the reduction of tax on May 1st and to reach the Chicago market ahead of all their eastern competitors. The stamps could not be obtained legally before May 1st; they had then to be procured from the collector's office, which was kept open till after midnight for the purpose, put on the packages and canceled before the tobacco could be taken from the factory. The train consisted of four cars, loaded with 100,000 pounds of tobacco, and left Jersey City at 7:45 on the following morning, having made the run in twenty-three hours and fifty-five minutes, a record of 38.6 miles an hour, with one or two extra stops for hot boxes.

## Council Gossip.

The council will meet in committee of the whole to-morrow evening, to wrestle with the water works question.

Ex-Councilman Hogan was an interested spectator of the proceedings last night.

The new council is a fine looking body of men. Fred McCulloch is the best looking member, but isn't the least bit vain about it.

Tony Dreyer is the heaviest in weight, and Capt. Putnam the lightest. Putnam is the oldest in point of service, but it is hard to tell whether he or Holmes is the oldest in point of years. Fox is the youngest.

Muhler and Holmes are the best humored members. Vordermark carries the least hair. Hettler talks the most and Fox and Holmes the least. Chittenden's toilet is more elaborate than that of the other members. Lillie is the only one who wears spectacles.

John Mohr is very demure and has the bearing of an Episcopal clergyman. The ugliest looking councilman is — (his name is suppressed out of respect for the feelings of his family). Wilkinson is the tallest member and Welch the shortest. Holmes and Dreyer are the only ones without beards.

The new councilmen are Hamilton of the second, Ryan of the third, Welch of the sixth, Mohr of the seventh and Lillie of the ninth wards. Hamilton served one term in the council several years ago.

## Standing Committees.

The mayor has appointed the following as the standing committees of the new council:

Assessments and Taxes—Hettler, Mohr and Ryan.

Finance—Muhler, Hamilton and McCulloch.

Streets—Vordermark, Putnam and Reidtender.

Police—McCulloch, Vordermark and Chittenden.

Police—Chittenden, Bash and Reese.

Sewers—Holmes, Putnam and Welch.

Printing—Dreyer, Reidtender and Wilkinson.

Markets—Reese, Dreyer and Fox.

Rules, Regulations and Ordinances—Lillie and McCulloch.

Public Grounds—Wilkinson, Welch and Reese.

Education—Bash, Hamilton and Putnam.

Judiciary—Hamilton, Muhler and Hettler.

Bridges—Fox, Reidtender and Wilkinson.

Waterworks—Hettler, Bash and Vordermark.

Public Improvements—Welch, Lillie and Fox.

## Distinguished Arrival.

Dr. Von Moschizsker, the well known European Physician and Specialist, arrived yesterday in the city. He is at the Aveline House. He comes to our city with the very best letters to some of our most eminent citizens. He will open his rooms to receive patients in a day or two, when we will have more to say about him.

## I. C. R. C.

The grand encampment of the Independent champions of the Red Cross of Indiana, a non-political temperance organization, assembled here yesterday, Grand Counselor Capt. Chas. Emery, presiding, and Jos. Lumbard acting as treasurer pro tem. After the reading of the minutes and the appointment of committees, the following officers were elected for the ensuing year:

Grand commander—L. W. Campbell, Fort Wayne.

Grand secretary—W. H. Caulkins, Lafayette.

Grand treasurer—George W. Jones, Fort Wayne.

Grand senior champion—Ralph James, Indianapolis.

Grand junior champion—Samuel M. Coddington, Lafayette.

Grand captain of the host—A. L. Ball, Chicago.

Grand chaplain—Mason Long, Fort Wayne.

Grand mistress of ceremonies—Miss Mary Pritchard, Lafayette.

Grand sentinel—A. A. Davis, Fort Wayne.

Last evening public exercises were held at the Reformed Men's Hall when a handsomely worded presentation to Grand Commander I. W. Campbell by Capt. Chas. Emery, in a few well chosen remarks, which were happily responded to by Mr. Campbell.

This morning the encampment re-assembled and listened to several reports. The new officers were installed. Resolutions were adopted, and I. W. Campbell, G. W. Brackenridge and Geo. W. Jones chosen trustees. An adjournment was then taken to the first Tuesday in May, 1880, after which the delegates were driven to Lindenwood Cemetery and other points of interest.
